-  
Thankyou for the interest in our award programs, and thanks also for the chance to visit your excellent website.

We have made quite a lot of changes since you last applied for our award. We have tightened up our criteria considerably, and our awards are actually very hard to win. While the bronze award might seem like a drop in level, it is actually quite a significant upgrade, and one well deserved.

If you check our assessment sheet [enclosed] you will see where you lost points. I have made many constructive comments on this sheet, that I hope you find useful.

Once again, congratulations for doing such an excellent job. I look forward to the possibility of upgrading you in the future. You will also see that I have sent awards from both of my sites. They each have their own URL and award rating as seen below.

**Subject:** Your awardapplication- feedback

Dear Dr. Umar Azam!

Thank You for Your interest in Timelines Awardprogram!  
 Your websites reflect Your engagement for Islamic Research.

If You could make some improvements to Your website, You could present  
 it also an excellent way!

Your sites have no Meta description, no meta keywords.

You give no update information on Your sites.

Your sites are not Safesurf and ICRA rated, there should be the tags

on every site.

Your images have no alttags.

Some images are only broken links.

There should be up- buttons at long pages.

Your awardpresentation is without laudatio, all awards at one site.  
You

should make separate sites for rated and unrated awards won.

There is horizontal scrolling at Your site "Dreams of Honours".

The colours You use are not pleasing for eyes looking at.

At Your Index- sites is visible html- code at the bottom, and broken  
intern links.

The site "Prayers" is much too long, without up button at the  
bottom,  
and no navigation at the site- I must use browser back to get to the  
menue.

If You could improve this, Your website would win much more rated  
awards, and Your application would be welcome again!

Have good times

Kind regards

Friedrich

**To:** "UMAR AZAM" <dr\_umar\_azam@yahoo.co.uk>

**Subject:** Tamurilart Awards Application Status

Dear Webmaster,

I regret to inform you that your application did not score high enough

points to win my award based on the following criteria requirements:

- The site should have a consistent design and layout.

The site design, graphics, colour scheme, and layout should be consistent

throughout the entire site. If a site design varies from page to page,

it

can sometimes confuse the visitor and downgrade the viewing experience.

Personal notes: The text size/colours/backgrounds and site design changed

frequently throughout my surf of your site. To score enough points to win

my award a site must remain consistent in design, colours, and text throughout the entire website.

- The site should have a pleasant colour scheme and easy-to-read text.

Colour schemes should not be bright or overpowering, and background textures should compliment the site. Text should be properly sized and

contrasted so that it is easy to read at different resolutions and on various browsers.

Personal notes: Some of the text was hard to read due to coloured backgrounds.

- Site should not contain horizontal scrolling at 800X600 or 1024X768.

If a site is too large for 800X600, there should be a statement placed

prominently upon the entrance of the site notifying users what

resolution  
is preferred. Keep in mind that sites containing horizontal scrolling  
at  
800X600 should have a good reason for it (i.e. Artistic display).

Personal notes: Much of your site has horizontal scrolling at  
800X600.

Unless the reason behind this scrolling is for artistic display, a  
site

must be viewable at 800X600 without scrolling on any of it's pages.

- All main areas of the site should be immediately accessible.  
The site should contain a menu (text or graphic) on each page, that  
provides links to all of the main areas of the site.

Personal notes: I noticed that when visiting certain areas of your  
site

I  
lost access to the main menus. To score high enough points to win my  
award, a site must have consistent navigation and menus to the main  
areas  
of their site on each web page.

- Internal and external links should be functional and properly  
directed.  
Internal links should not open in a new window unless necessary, and  
all  
external links or separate sites (Such as guest books and stand-alone  
awards programs) should open in new windows. I will make an exception  
to  
valid XHTML sites that have taken the time to code within W3C  
standards.

Personal notes: Links to outside sites open in the same window  
(Including  
your trophies and other links). I would like to see all external  
links

open in new windows for easy access.

Please note: These are my own personal opinions based on my awards  
program  
requirements and site reviewing standards. I hope that you do not  
take

offense at this disqualification, as I only write you this letter in

attempts for you to better understand your disqualification and possibly improve your site in the future.

If you have questions regarding your disqualification, or need help with improving your web site, don't hesitate to contact me! I would be glad to help in any way I can.

You are welcome to re-apply at any time once your site meets my program requirements.

Sincerely,  
Tamuril

Dr Azam.....I am so thrilled with having had the honor of evaluating your site yet again, and I so enjoyed it. You have an interesting site with a whole lot of valuable information and I am always amazed by it.

I am proud to announce that you have won the **Silver Award** at Becky K's Awards Program.

Here is the results of you evaluation. These are just listed here as total points for each category you have earned. In the attachment you will notice the evaluation form is attached. The form will show the specifics of the evaluation.

----------------------------	-----------

After you have reviewed the evaluation and decide you may want to upgrade it, you can do so 90 days from the date of this email. That is entirely up to you. You have a great site and it is great just the way it and not winning a higher award does not change that..

I have placed your link on my winners page. <http://www.tlth.org/bksawardwinners.htm>

It is required that you respond to this email with the page url which you have placed the award on your site.

A link back to the awards program page would be greatly appreciated, but it is not required. <http://www.tlth.org/beckyksawards.htm> (Do not link back to main site) This will allow others the opportunity of applying for this award.

Since you received an award under the old program, you need not replace the old awards with the new one. These are brand new awards and can be included however you choose to include them.

Thank you for your participation in the new upgraded Becky K's Awards Program

Have a wonderful day!!!

Congrats, Dr. Azam.. - You win. :-)

I also signed your guest book.

To claim your award just visit this page.. <http://spider-food.net/winners-graphics.html>

As always, make sure you download the award (not hotlink) as I will be moving this page when the next version of my site goes online. Also, while a link back to SF isn't required to win, if you do link back I'd appreciate you using the ALT text "search engine optimization award." - That will help me keep my site on-topic.

Thanks for applying. And cheers!

 subj Broken links

ect

Hello Doctor:

There are several broken links on your site. Below is a list. I have just started the evaluation of your site today. I will move on to another site and give you a chance to fix these links. Otherwise, I will have to disqualify your site as there are more than 4 broken links. Will two (2) days allow you enough time to fix these links? Or, I can go ahead and DQ your site, and you can fix the broken links at your leisure and re-apply in 90 days.

This is the program that I use to check for broken external and internal broken links. You download it to your computer. <http://home.snafu.de/tilman/xenulink.HTML> Most of the AP programs use this link checking program as it is fast and easy and FREE.

Some of these are news links and these type of links typically do not stay valid for very long, so I would not rely on them in the future.

Just let me know what you would like to do. (the first one = penmarric - I think you just have too many forward slashes).

thank you for your interest in  
Timelines Award Program and  
inviting me to visit your site.  
I am sorry that your site cannot
