RE: Dream

To

Assalamwalikum Dr.Umar,

Thank you for your interpretation. My parents and his are involved. His mother (Father is not alive) had given a call and asked for my hand. I have just left this matter to Allah. There is no major problem except the fact that he is not settled. Just recently I started having problems with his behaviour. However I will be very cautious and will not do anything without my parents' consent. I know a nikah without my father's consent is invalid. I saw you have posted some dreams on your website. I would appreciate it if you keep our correspondence private. Thank you for your time and guidance. May Allah bless you for your work.

Regards,

Ms. Humaira Ahmed.

Wa laikum salam, Humaira

I think you need to be very cautious here or your marriage to this person could be a disaster. You need to involve both sets of parents or other relatives [yours and his] for the marriage to have any chance of success. A Muslim girl attempting to arrange her own marriage without the blessing of the elders is what the dream was referring to about "idiot". If he is a very selfish person, he will not want to marry you when the elders get involved because he has just been using you. He wants the relationship to be on the basis of 'no strings attached', a concept not acceptable in Islam!

Humaira Ahmed <ahmed_humaira@hotmail.com> wrote:

Assalamwalikum Dr.Umar,

Thank you for your email.I understand that I have been having misguidance in my life,maybe your are right.There is something else on which i need interpretation.

I have loved a guy from the past 8 years..right now I am 23 yrs old.When i got into the relationship I did not know it is haraam..as I thought just having sexual intercourse with the opposite sex is haraam.I loved him truley and always wanted to marry him.Otherwise I consider myself to be a good muslim..following the 5 pillars of islam.From the past 1 year I started learning about religion...and found out that hijab is compulsory and started following it.Also since now I am in marrigable age,the guy who I have loved wants to perform nikah with me.I did ishtiqara once..i saw a dream in which both of us are very happy..v r going to the movies..v are eating out..and are happy with each other...i thought of it to be as yes...later things started getting bad..his behaviour towards me started changing..though he says he loves me n intends to marry me..he speaks very rudely to me and doesnt appreciate me.I still love him.I did ishtiqara again and saw a completely opposite dream.I dreamt that we are in a councelling meet.There is a large crowd.The counsellor is a christian.He points out to the guy I love and says "He is the most selfish person in the crowd" and then he points at me and says "and the girl sitting next to him is the biggest idiot sitting here".I am utterly confused and dont know what to do.I still love him..but dunno if this marriage is good for my deen and duniya.Kindly guide me.

Thanking you

Ms. Humaira Ahmed.

Thanks for contacting me. Noor in a dream means guidance but darkness means misguidance. I think there's some sort of trouble in your life and it's been stressing you out. You can read the Duas and use the Taweez in the PRACTICAL ISLAMIC ADVICE section of my Site www.dr-umar-azam.com

Assalamwalaikum,

I read that you give interpretations about dreams.

I have had this persistant dream from the past 7-8 years in which im in a very dark place (I don't know which place) and running away from something which is trying to catch me.I have never seen what is tryin to catch me...i dont know whether its just a feeling or there is something really behind me.I keep running and try to scream but am unable to...my voice dissapears.Simultaneously while im watching this dream..im actually trying to scream in real and my sister gets disturbed of it.

Please tell me what this dream means and if there is any way to stop it from reoccurring.

Thank you in advance

Dears

Assalam-u-Alaikum

Hope you are fine and in the best of health and faith.

Could you please do me a favour?

I have done my research on the topics of the Holy Quran and I have launched a website www.quranictopics.com and present the verses of the Holy Quran on different topics which answer many questions clearing the concepts of the human beings about the most important issues and truths related to our life.

I am presenting these verses with Urdu and English Translations. My problem is that I don't know Urdu typing and this is why it takes a long time to prepare the pages for different topics to upload on the site. I am doing this only to please Allah and to convey his messages to the humanity. If anyone can help me and provide me the Urdu Translation of the verses on different topics (I can send you the verses) in MsWord File I will be really grateful and inshallah

he/she will be rewarded by Allah.

You can help me in preparing only one topic which will be uploaded on this site and just imagine how many people can visit it and the reward for you from Allah.....?

Believe me this is a great work for Allah only and it can reward us more than we can imagine.

It will take my 5-10 years to complete my work if I work alone but if I find someone who can help me I can complete it in a short time.

Looking forward to a positive response from any of "IBAD-UR-RAHMAN"

In the name of Allah, the most Gracious, the most Merciful.

Dears

Assalam-u-Alaikum

Hope you are fine and in the best of health and Iman.

As I have stated earlier that I am trying to collect and present the verses of the Holy Quran (with Urdu and English translations) on different topics to convey the messages of Quran to the humanity.

I have done most of my research work about it but as I am working alone on this project it takes very long time to prepare files and web pages to upload on the internet.

I have launched a website for this purpose, please visit the site www.quranictopics.com and if you feel that it is useful work and all the

topics of the Holy Quran should be there on this site, you can share in this work and as a team we can do years' work in days.

Inshallah the files we prepare will remain somewhere in the world telling the truths even after our death.

Can you imagine how long this work can last, maybe up to the Day of Judgment and reward us as traces of our deeds. So have your share...

You can help in five ways:

- 1- Inform about more verses of the Holy Quran directly related to given topic
(In such a case please mention Surah No

and Verse No)

- 2- Type the Urdu Translation of the topic (that we will send you) in Ms Word File.
- 3- Type the English Translation of the topic.
- 4- Proof read the topic before we upload it.
- 5- Help in preparing web pages for the site.

The attached file is an example, the topic of our site Part 4 chapter 3. You can start now if you have free time and you want to do something for afterlife.

And we are changing the format of the web pages like this please visit this

page

<http://www.quranictopics.com/p4ch1-u.html>

]

and the work done by you will be inshallah a page like this on the net.

Let us join hands to spread the message of the Holy Quran to the humanity.

Looking forward to hear from you.

May Allah reward us for our efforts.

Truly

Your brother

Assalamu Alaikum,

Thanks v. much for supplying your comments, Zohra.

Regarding the points you make:

[1] All care is taken when interpreting dreams. The book by Ibn Sireen [R.A.] is used, as well as scientific sources [scientific sources are from the field of psychology]. Now my respondents know that dream interpretation, by virtue of its very challenging nature, cannot be 100% guaranteed. However, feedback does suggest that my efforts are appreciated as far as those go!

[2] Regarding Taweez, see the correspondence at the end of the 'using Taweez' section on: www.freewebs.com/drumarazam

Once again, many thanks for bothering to give me feedback. Others on this list should note that their feedback will also be appreciated. JazakAllah.

Mphil Dissertation - University of South Asia by (Naveed Ahmed)

- Naveed Ahmed

-

- 31 Dec 2008

To

- nedahmed@excite.com

Dear Friends,

I am very pleased to announce all of you that the Law faculty of University of South Asia Lahore has finally approved my dissertation for the degree of Masters in Philosophy of Law (05-Dec-08) on the topic, "The Laws and Justice System in FATA with Recommendations for Reformatations". I am thankful to my Supervisor Dr. Muhammad Naeem for being a true guiding force to accomplish this task and also to all of my friends for their genuine support during last year of my studies.

This is a very little effort on my behalf to stand up and assure the Tribal People that being in the so-called safest part of the Pakistan, we are equally affected, saddened and grief stricken due to this operation in North-Western part of Pakistan. Pakistan has currently witnessed the largest repatriation movement in modern history, for more than two decades Pakistan hosted the largest

single refugee population in the world and they were accommodated in the North-Western part of Pakistan. It was estimated that 1.1 million refugees remained in refugee camps at the start of 2003, after more than 1.5 million repatriated the previous year. In addition, an unknown but substantial number of Afghans were known to live in Pakistan's urban areas.

In the current situation, Federally Administered Tribal Areas (FATA) evoke feelings of an area where civilization is yet to enter. Where people are averse to any outside influence and criminal activities are common, rather protected and appreciated. The reality, however, is absolutely different. The people of this deprived region need and love peace and development. Groaning under grinding poverty and lack of resources for a long time, they look up to the Government to pay due attention to their genuine needs to progress. They need schools, colleges, hospitals, roads and economic opportunities, like other people, to lead a respectable and secure life. An all encompassing development strategy can ensure the achievement of these goals and also act as a bulwark against the rising tide of extremism and militancy in the area. The geographical location of FATA should not become a disadvantage for the people rather it should be used as an opportunity for prosperity.

This dissertation prognosticates the laws and Justice System in FATA its impacts, causes, losses and future strategy to control the situation. The administrative system in tribal area is destabilized and there is need to improve, reform and specially strengthen the Laws & Justice system of FATA otherwise its effects could spillover to the whole country.

Finally I would like to extend my warmest thanks and appreciation to those closest to me, to my parents; for their constant encouragement and support who has been my 'rock'; giving me support and tireless encouragement, especially in this last year.

With permission of the Law faculty of my university, I am forwarding you a copy of dissertation, please find attached file in PDF format.

I would welcome comments & remarks from all of you for the improvement and also for references.

Best regards,

Naveed Ahmed

Boldog Új Évet kívánok Önnek!

(I wish you a Happy New Year!)

Ezen a napon kell beszámolnom olvasóimnak arról, hogy hosszú időn keresztül miért nem mutattam be új könyveket. 2007. május 15-én a megsemmisítésemre és a vagyonom elrablására irányuló támadás indult ellenem. Vagyonomnak része a könyveimre vonatkozó szerzői jogom is.

(I should this day relate to my readers why I have not presented new books for a long while. On the 15th of May 2007 an attack was launched against me in order to annihilate me and to rob my wealth. My copyright on my books is also part of my wealth.)

2007. május 15-én Hódmezővásárhely polgármestere gondnokság alá helyezésem iránt indított eljárást, az állítólagos indok a személyem és a vagyonom védelme volt. Kérem, nyissa meg az alábbi linket.

<http://www.monusaron.com/gyam.html>

(On the 15th of May 2007 the mayor of Hodmezovasarhely initiated a procedure to place me in charge of a guardian, the alleged motive was the protection of my person and of my wealth. Please open the link below.)

<http://www.monusaron.com/gyam.html>

Ha sikerült volna engem gondnokság alá helyezni, akkor ezzel elveszítettem volna a jogot a vagyonom feletti rendelkezéshez, beleértve a könyveimre vonatkozó szerzői jogomat is: ezután a könyveim terjesztése megszűnt volna.

(If the procedure to place me in charge of a guardian had succeeded, then I should have lost my right to the disposition over my wealth, inclusive of my copyright on my books: after that the diffusion of my books would have come to an end.)

Tiltakozásom következtében a gondnoksági ügy a Szegedi Polgármesteri Hivatalhoz került, amely a 2008. évben megszüntette az ellenem indított eljárást hivatkozva a Legfelsőbb Bíróság Bfv.I.622/2005/6. számú, 2005. november 15-én hozott ítéletére. Idézek a Legfelsőbb Bíróság ítéletéből: "az ügyben feltárt bizonyítékokból tisztázódott, hogy a magánvádló elmebeteg voltának állítása alaptalan. Mónus Áron magánvádló beszámítási képességét korlátozó vagy kizáró elmebetegségben nem szenved és nyilvánvalóan nem is szenvedhetett, nem mutathatta ennek jeleit a kérdéses tévéműsorban történt fellépése során sem."

(As a consequence of my protestation the procedure to place me in charge of a guardian was transferred to the Office of the Mayor of Szeged, which, in the year 2008, has quashed the procedure with reference to the sentence of the Supreme Court of the 15th of November 2005, n° Bfv.I.622/2005/6. I quote the sentence of the Supreme Court: "from the proofs discovered in the lawsuit it has been cleared that the statement according to which the civil suitor is insane is unfounded. Mónus Áron civil suitor does not suffer from any mental disorder which would restrict or preclude his capacity of responsibility, and it is obvious that he could not suffer, he could not present symptoms of such suffering during his appearance on the television programme in question.")

Írókat akkor üldöztek ilyen formában Magyarországon, amikor Rákosi Mátyás volt "a magyar nép bölcs tanítója".

(Writers were persecuted in such a manner in Hungary when Rákosi Mátyás was "the wise teacher of the Hungarian people".)

Hódmezővásárhely, 2008. december 31. (the 31st of December, 2008).

Üdvözlettel: (Yours sincerely:)

The Big Bang between science & Quran

By Magdy Abd Al-Shafy Abd AL-gawad

Every Holy Book must include within its verses definitive proofs that testify to its divine source ; these proofs must fit every generation mentality and in the same time it should remain tact. Among the many miracles of the Holy Quran is the scientific miracle though there are many other miracles that are equally important. Though the Holy Quran revealed in time where nothing but superstition is prevalent on a generous prophet who was unlettered in a place in a desert where only few scattered tribes are here and there ,it is replete with verses that talks about scientific facts that are completely in agreement with what science says. it addresses the human mind through hundreds of scientific verses according to its scientific evolution and its culture thus refuting any claim of atheism or any iota of doubt , it unfetters the human mind and soul that have been long cramped with the unsubstantiated claims of atheism over the span of history.

The scientific verses in the Holy Quran reinforce the belief in Allah(SWT) in the hearts of Moslems and show how Great and Mighty Allah(SWT) is and that the whole of the universe is under His control and nothing to escape His will.

Unlike science books that are replete with equations and dry scientific facts , its scientific wording is matchless ,it has emotional impact which leaves its listener willingly submitting himself to his Lord, so exhilarated with his being servant to Allah(SWT) ,it moves barren eyes to tears and

softens petrified hearts and fills you with ecstasy. Allah(SWT) says in this regard what means:

If We had caused this Quran to descend upon a mountain, thou (O Muhammad) verily hadst seen it humbled, rent asunder by the fear of Allah. Such similitudes coin We for mankind that haply they may reflect.(59: 21)

And also Allah(SWT) says in this regard in another place:

Say: Believe therein or believe not, lo! those who were given knowledge before it, when it is read unto them, fall down prostrate on their faces, adoring, Saying: Glory to our Lord! Verily the promise of our Lord must be fulfilled.They fall down on their faces, weeping, and it increaseth humility in them.(15:109)

Cosmogonies between Quran and Science .

Among the many scientific miracles that Quran refers to is :

(1)The big bang

(2)The gaseous state of the universe

(3)The expansion of the universe

(4)The big crunch

Before we talk about these scientific references in Qu'ran , we find it necessary to talk about what science says about these scientific discoveries then listen to what the Holy Quran says in this regard. So how science explains the beginning of creation(The Big Bang).

Before the twentieth century, astronomers could only assume that the universe had existed forever without change, or that it was created in its present condition by divine action at some arbitrary time.

Foremost among the theories that explain the beginning of the universe is the theory of the Big Bang which is the most acceptable one for many scientific reasons , according to this theory , all forms of matters and energy of the observable and unobservable universe were once squashed in a well-closed up mass of infinite heat and density where no laws of physics that we know can apply , then a huge explosion happened leaving

a huge ball of radiations and primordial particles and soon a huge cloud of gas was formed and gradually the heat began to decrease and the creation of galaxies began to form.

There are a lot of pieces of evidence, foremost among these are:

(1) Evidence that the universe may be evolving did not begin to accumulate until the 1920s. Before that time, calculations, studies and observations had begun and it was only before 1929 that the efforts of scientists were crowned by the discovery of the American astronomer Edwin Powell Hubble; while he was studying far galaxies through his giant telescope, he noticed that light coming from distant galaxies is redshifted, this means that galaxies are traveling away from us and from each other at high velocities that approach the speed of light. This has been considered the most important astronomical discovery of the century, in fact the Holy Quran refers to the expansion of the universe as we will show.

(2) Very early in its history, the whole Universe was very hot. As it expanded, this heat left behind a "glow" that fills the entire Universe. The Big Bang theory not only predicts that this glow should exist, but that it should be visible as microwaves (part of the Electromagnetic spectrum) and this is the Cosmic Microwave Background which has been accurately measured and is very good evidence that the Big Bang theory is correct.

(3) Mixture of elements: As the Universe expanded and cooled down, some of the elements that we see today were created. The Big Bang theory predicts how much of each element should have been made, and what we see in very distant galaxies and old stars is just right.

Does the Holy Quran mention the Big Bang ?

Prior to science and more than fourteen hundred years ago, The Holy Quran explains the beginning of the creation of the universe. Allah says in the Holy Quran what means

"Do not the unbelievers see that the heavens and the earth were joined together (sewn together) (as one Unit of Creation) and then We unstitched (clove them) and that We made from water every living thing? So will they not believe? (Qur'an, 21:30) "

First, the verse starts with a prophecy that has come true; it states that those who will discover how the universe came into being will be among the disbelievers and that prophecy was fulfilled because those who discovered this fact were not Moslems. The Holy Quran uses just two words to describe all that has been written about the Big Bang and as we will see that these two words are even more accurate than the scientific words. The verse starts with a call to the disbelievers who based their atheism on the claim that universe is eternal to think over again and understand what science-by the grace of Allah(SWT)- will discover concerning the creation of the universe, it emphatically states that

disbelievers will discover how the creation come into being , the word " *Will*" means that this will happen in the future ...it is so wonderful that the Quran predicts whom will discover .To those who still suspect the prophethood of this great prophet , we say what benefit can they get by claiming such a thing that time , if it is false claim , can completely raze it to the ground?

On reading the verse again you won't rack your mind to understand its meanings , the holy Quran uses just two words to describe how the universes was created :

Didn't the disbeliever see that the heavens and the earth were (*Ratk*)

The Holy Quran depicts how the universe was like before coming into being and even use a different word other than the word "universe" to depict it as it wasn't a universe yet , The Holy Quran uses the Arabic word (*Ratk*) to depict the universe before being a universe , this word , strikingly , signifies the same description that scientists use when they talk about the universe before being a universe , the Quranic word " (*Ratk*) means in English" *well-closed up mass or elements interwoven together, mixed in each or blended"* . Remember that science says that all forms of matter and energy were squashed in well-closed up mass (singularity point or primarily nebula)

So the Holy Quran and science are in complete agreement concerning the shape of the universe before being a universe. If you still confused about the meaning of the Arabic Quranic word and the words that science uses look at this table.

| Quranic word | Meaning in English | Science words |
|--------------|--------------------------------------------------------------------------------|----------------------------------------------------------------------------|
| Ratak | well-closed up mass or elements interwoven together, mixed in each or blended" | A well-closed up mass where all forms of matters and energy were squashed. |

The Big explosion in the Quran

The Holy verse goes on to say " we (*Fatak*)

The Arabic word" Fatak" means " unstitch , clove asunder , tearing apart or destroying the structure of

things that are sewn to one another , and that what science says , science uses the word explosion which gives the same meaning .

. The word is used to describe the beginning of creation in the Holy Quran ; it is , along with all its implication , is in conformity with the meanings of the Big Bang .

In other words , when we think about the first moments of the Big Bang, we see that the entire matter of the universe was collected at one single point. In other words, everything-including "the heavens and earth" which were not created yet were in an interwoven and inseparable condition. Then, this point exploded violently, causing its matter to disunite.

| Quranic word | Meaning in English | Science words |
|---------------------|--------------------------------------------------------------------------------------------------------------------|----------------------|
| Fatak | unstitch , clove asunder , tearing apart or destroying the structure of things that are sewn to one another | Explosion |

Who told Mohammed these accurate scientific facts that science only reached this century ?!!!

What benefits could he get by claiming things like this if he is imposter ?!!!

How can he be sure that science won't come some day to refute these claims , if he had been imposter ?!!!

These scientific facts that are in the Quran testify to Mohammed true prophethood and testify to the divine source of the Holy and refute the atheistic claims.

. If that prophet had been imposter or counterfeiter , how did he dare to indulge himself in matters that didn't concern the people of his age?!!!

Fatak or big bang- which is more expressive?

Unlike the meanings of the big bang , the Quranic words denote system , wisdom , creativity while the words Big Bang , a term coined by scientists , implies random chaos .

Here you can understand the miraculous use of the word in the Holy Quran , Allah says in the Holy Quran in this regard what means what means " Say: if the ocean were ink (wherewith to write out) the words of my Lord, sooner would the ocean be exhausted than would the words of my Lord, even if we added another ocean like it, for its aid." (AL-Kahf:109)

Allah ,also, says in the Holy Quran in this regard what means" And if all the trees on earth were pens and the Ocean (were ink), with seven Oceans behind it to add to its (supply), yet would not the Words of Allahbe exhausted (in the writing): for Allahis Exalted in power, full of Wisdom.
