## **Why Pig Fat is not mentioned but code(s) are printed??**

PIG FAT By Dr. M. Amjad Khan

In nearly all the western countries including Europe, the PRIMARY choice for meat is PIG. There are a lot of farms in these countries to breed this animal. In France alone, Pig Farms account for more than 42,000.

PIGS have the highest quantity of FAT in their body than any other animal. But Europeans and Americans try to avoid fats.

Thus, where does the FAT from these PIGS go? All pigs are cut in slaughter houses under the control of the department of food and it was the headache of the department of food to dispose of the fat removed from these pigs.

Formally, it was burnt (about 60 years ago). Then they thought of utilizing it. First, they experimented it in the making of SOAPS and it worked.

Then, a full network was formed and this FAT was chemically Processed, Packed and Marketed, while the other manufacturing companies bought

it. In the meantime, all European States made it a rule that every Food, Medical and Personal Hygiene product should have the ingredients listed on its cover. so, this ingredient was listed as PIG FAT.

Those who are living in Europe for the past 40 years know about this. But, these products came under a ban by the ISLAMIC COUNTRIES at that time, which resulted in a trade deficit.

Going back in time, if you are somehow related to South East Asia, you might know about the provoking factors of the 1857 CIVIL WAR. At that time, Rifle Bullets were made in Europe and transported to the sub-continent through the Sea. It took months to reach there and the gun powder in it was ruined due to the exposure to sea.

Then, they got the idea of coating the Bullets with fat, which was PIG FAT.. The fat layer had to be scratched by teeth before using them. When the word spread, the soldiers, mostly Muslim and some Vegetarians, refused to fight. Which eventually lead to the Civil War. The Europeans recognized these facts, and instead of writing PIG FAT, they started writing ANIMAL FAT. All those living in Europe since 1970's know this fact. When the companies were asked by authorities from the MUSLIM COUNTRIES, what animal fat is it, they were told it was COW and SHEEP Fat. Here again a question raised, if it was COW or SHEEP Fat, still it is HARAAM to MUSLIMS, as these animal were not SLAUGHTERED as per the ISLAMIC LAW. Thus, they were again banned. Now, these multinational companies were again facing a severe drought of money as 75% of their income comes from selling their goods to

Muslim Countries, and these earn BILLIONS OF DOLLARS of Profit from their exports to the MUSLIM WORLD.

Finally they decided to start a coding language, so that only their Departments of Food Administration should know what they are using, and the common man is left lurking in the dark. Thus, they started E-CODES. These E- INGREDIENTS are present in a majority of products of multinational firms including, but not limited to -

TOOTH PASTE,  
SHAVING CREAM  
CHEWING GUM,  
CHOCOLATE,  
SWEETS,  
BISCUITS,  
CORN FLAKES, TOFFEES,  
CANNED FOODS,  
FRUIT TINS,

Some medication Multi-vitamins Since these goods are being used in all MUSLIM Countries indiscriminately, our society is facing problems like shamelessness, rudeness and sexual promiscuity.

So, I request all MUSLIMS or non pork eaters to check the ingredients of the ITEMS of daily use and match it with the following list of E-CODES. If any of the ingredients listed below is found, try to avoid it, as it has got PIG FAT;

E100, E110, E120, E 140, E141, E153, E210, E213, E214, E216, E234,  
E252,E270, E280, E325, E326, E327, E334, E335, E336, E337, E422, E430,  
E431, E432, E433, E434, E435, E436, E440, E470, E471, E472, E473,  
E474, E475,E476, E477, E478, E481, E482, E483, E491, E492, E493, E494,  
E495, E542,E570, E572, E631, E635, E904.

Yes, there is no doubt about this excellent work - Mashaallah.

Just one question, is there any procedure to play (I mean to listen the Quran with Urdu translation) ?

Kind regards

Ayub Khan

Recently i did istikhara i had a really confused dream. at first me and some people from school were standing near a swimming pool the colour of the water wsn't the normal colour it was a kind of medium blue colour. then later on there was a room which was pitch black that people were entering, however i did not enter it. then i was looking at some temples from the outside however it felt asif they had been converted into mosques. i was then reading namaz evetyhing was a rich deep yellow colour there were 2 boys behind me watching one of them was quite small around the size of a toddler and the other in his teens. watching me inspired them to read namaz . i was reading in the forward direction, the younger one did sajdah infront of me but did sajdah in the dirction to the left. the little boy dissapeared and the older one started to do sajdah next to me in the forward direction. we both did sajdah at the same time. i read Subhana rabiul ala out loud 3 times trying to make him say.

please could you interpret my dream for me i dont understand, as there are many differences: water being a darker blue colour, temples, the dark room, and the little boy doin sajdah facing in the direction to the left.

**,As I see it, your dream is telling you that you, yourself, Masha'Allah, are rightly guided [reciting *Subhana rabiul ala*]. For Muslims as a whole, the current year [little boy, pitch black room] means a distressing situation for us [just look at what is happening in Palestine]. Muslims are not following the proper rules of Islam [incorrect sajda]. Islam is expanding [temples > mosques]. I feel your dream is telling you that you obviously care about other Muslims and that you are aware of the repercussions of our religion at a public level, not just on your own private level.**

## Prohibition of Breaking ties and Relationships

Abu Hurairah (May Allah be pleased with him) said: The Messenger of Allah (PBUH) said, "Peoples deeds are presented before Allah on Mondays and Thursdays, and then every slave (of Allah) is granted forgiveness (of minor sins) if he does not associate anything with Allah in worship. But the person in whose heart there is rancour against his brother, will not be pardoned. With regard to them, it is said twice: ` Hold these two until they are reconciled." [Muslim].

## The Islaamic Ruling on Horoscopes

By al-Hidaayah Publications

---

*Not only is the practice of astrology is Haraam, but also visiting an astrologer and listening to his predictions, buying books on astrology or reading one's horoscope are also forbidden. Since astrology is mainly used to predicting the future, those who practice it are considered fortunetellers. Consequently, one who seeks his horoscope comes under the ruling contained in the Prophet's sallallaahu alayhi wa sallam statement: 'The Salaah (daily prayer) of whoever approaches a fortuneteller and asks him about anything will not be accepted for forty days and nights.' [Saheeh Muslim vol.4,p. 1211, no 5440]*

*The punishment in this hadith is simply for approaching the asking the astrologer, even if one is in doubt about the truth of his statements. If one is in doubt about the truth or falsehood of astrological information, he is in doubt about whether or not others know the unseen and the future besides Allaah. This is a form of shirk because Allaah clearly stated:*

***"And with Him are the keys tot he ghayb [all that is hidden], none knows them but He and He knows whatever there is in [or on) the earth and the sea; not a leaf falls, but the knows it. There is not a grain in darkness of the earth nor anything fresh or day, but is written in a clear record." [6:59]***

***"Say: None in the heavens and the earth knows the ghaby (unseen) except Allaah, nor can they perceive when they shall be resurrected. " [27:65]***

*If, however, one believes in the predictions of their horoscope, whether spoken by an astrologer or written in books of astrology, he falls directly into kufr (disbelief) as stated by the Prophet sallallaahu 'alayhi wa sallam: **'Whoever approaches an oracle or fortuneteller and believes in what was revealed to Muhammad.'***

*[Sunan Abu Dawood vol.3, p.1095, no.3895]*

*Like the previous Hadith, the Hadith literally refers to the fortuneteller but it is just as applicable to the astrologer. Both claim knowledge of the future. The astrologer's claim is just as opposed to the Tawheed as the ordinary fortuneteller. He claims that people's personalities are determined by the stars, and their future actions and the events of their lives are written in the stars. The ordinary fortuneteller claims that the formation of tea leaves at the bottom of a cup, or lines in a palm tell him the same thing. In both cases individuals claim the ability to read in the physical formation of created objects knowledge of the unseen.*

*Belief in astrology and the casting of horoscopes are in clear opposition to the letter and spirit of Islaam. It is really the empty soul, which has not tasted real eemaan (belief) that seeks out these paths. Essentially these paths, represents a vain attempt to*

escape Qadr (fate). The ignorant believe that if they know what is in store for them tomorrow, they can prepare from today. In that way, they may avoid the bad and ensure the good. Yet, Allaah's messenger was told by Allaah to say:

**"Say (O Muhammad sallallaahu 'alayhi wa sallam): ' I possess no power over benefit or hurt to myself except as Allaah wills. If I had the knowledge of the ghayb (unseen), I should have secured for myself an abundance of wealth, and no evil should have touch me. I am but a warner, and a bringer of glad tidings unto people who believe." [7:188]**

True Muslims are therefore obliged to stay far away from these areas. Thus, rings, chains, etc., which have the signs of the zodiac on them should not be worn, even if one does not believe in them. They are part and parcel of a fabricated system which propagates kufr and should be done away with entirely. No believing Muslim should attempt to guess his sign. Nor should he or she read horoscope columns in newspaper or listen to them read.

And, any Muslim who allows astrological predictions to determine his actions, should seek Allaah's forgiveness and renew his Islaam.

**You will be amazed.....**

A friend sent this to me.... ALLAH made dry land, planted a garden, made animals and fish... all before making a human. He made and provided what we'd need before we were born. These are best & more powerful when eaten raw. We're such slow learners...

**ALLAH left us great clues as to what foods help what part of our body!**

**ALLAH's Pharmacy! Amazing!**

A sliced Carrot looks like the human eye. The pupil, iris and radiating lines look just like the human eye... and YES, science now shows carrots greatly enhance blood flow to and function of the eyes.

A Tomato has four chambers and is red. The heart has four chambers and is red. All of the research shows tomatoes are loaded with lycopine and are indeed pure heart and blood food.

Grapes hang in a cluster that has the shape of the heart. Each grape looks like a blood cell and all of the research today shows grapes are also profound heart and blood vitalizing food.

A Walnut looks like a little brain, a left and right hemisphere, upper cerebrums and lower cerebellums. Even the wrinkles or folds on the nut are just like the neo-cortex. We now know walnuts help develop more than three (3) dozen neuron-transmitters for brain function.

Kidney Beans actually heal and help maintain kidney function and yes, they look exactly like the human kidneys.

Celery, Bok Choy, Rhubarb and many more look just like bones. These foods specifically target bone strength. Bones are 23% sodium and these foods are 23% sodium. If you don't have enough sodium in your diet, the body pulls it from the bones, thus making them weak. These foods replenish the skeletal needs of the body.

Avocados, Eggplant and Pears target the health and function of the womb and cervix of the female - they look just like these organs. Today's research shows that when a woman eats one avocado a week, it balances hormones, sheds unwanted birth weight, and prevents cervical cancers. And how profound is this? It takes exactly nine (9) months to grow an avocado from blossom to ripened fruit. There are over 14,000 photolytic chemical constituents of nutrition in each one of these foods (modern science has only studied and named about 141 of them).

Figs are full of seeds and hang in twos when they grow. Figs increase the mobility of male sperm and increase the numbers of Sperm as well to overcome male sterility.

Sweet Potatoes look like the pancreas and actually balance the glycemic index of diabetics.

Olives assist the health and function of the ovaries

Oranges, Grapefruits, and other Citrus fruits look just like the mammary glands of the female and actually assist the health of the breasts and the movement of lymph in and out of the breasts.

Onions look like the body's cells. Today's research shows onions help clear waste materials from all of the body cells. They even produce tears which wash the epithelial layers of the eyes. A working companion, Garlic, also helps eliminate waste materials and dangerous free radicals from the body.

Please don't break this even if you only send it to one person. Look at the date when this was started. Thanks

**Actually I have done some research on the very same topic.**

SCENARIO 1

Some time in future there is a chance of passing meteor coming very close to earth below our communication satellites (2012 and then 2020)

it is possible that massive electro magnetic energy of such an object would shift earth's magnetic pole in opposite direction and as the object may pass through (if without colliding) then the magnetic field would turn back to normal.

This could confirm the sun rising from west one day and then going back to east next day...

it would be as if you rewind the tape and then play it forward again....

**QAYAMAT aka JUDGMENT DAY - Quranic description and science**

Another hypotheses is **passing black hole.. that arrives near earth or in our solar system or perhaps much larger then our entire solar system or systems**

**Science now confirms that there are "wandering black holes" out there... and one of these days one might come to close sucking up**

every thing in it....

Look how Quran states the above scenario

QURAN SURAH 21

*The Day that **we roll up the heavens** like a scroll rolled up for books even as We produced the first Creation, so shall We produce a new one: a promise We have undertaken: truly shall We fulfil it. (Quran 21: 104)*

**So this could happen**

**Other Examples:**

**first sign is destruction of earth's atmosphere**

But that would be catastrophic and it would end life on earth immediately. .. but before that it will blow up earth's all 7 protected layers... the experience of these events described by Top Scientists in the documentary "The Last Days on Earth" match many verses of Quran in description.

For Example:

As ozone is blown away (burnt out) it will be extremely bright so much so that it will blind every eye on the earth.

FOLLOWING VERSES OF QURAN DESCRIBE EACH SYMPTOM OF CATASTROPHE WHEN A MASSIVE BLACK HOLE MAY FINALLY GULP IN ALL OF SOLAR SYSTEM

1- BURNING OUT OF OZONE and ALL LAYERS OF SKY AROUND EARTH

*Quran Surah 75*

*He questions: "When is the Day of Resurrection?" (6)*

*At length, **when the Sight is dazed, (7)***

**A typical scenario of black hole sucking every thing in...**

*Quran Surah 75*

***And the moon is buried in darkness. (8)***

*And the sun and moon are joined together? (9)*

Quran SURAH 81

***When the sun (with its spacious light) is folded up; (1)*** (as scientist **Neil DeGrasse** say that even the light can not escape black hole)

***When the stars fall, losing their luster; (2)***

## **Another scenario of gamma ray burst or a black hole arriving near us**

QURAN SURAH 82

***When the Sky is cleft asunder; (1)*** (all 7 layers of earth's atmosphere are torn /burnt /sucked in by black hole)

***When the Stars are scattered; (2)***

***When the Oceans are suffered to burst forth; (3)*** (scientist clearly state that our oceans will be spilled out / boiled with massive gravity and heat)

Quran SURah 77

***Then when the stars become dim; (8)***

***When the heaven is cleft asunder; (9)***

***When the mountains are scattered (to the winds) as dust; (10)***

***(once again you see that gravity of black hole will pull earth as Neil DeGrasse describes that we will go up in bits and peaces every thing will be sucked in by black hole including all planets and sun and moon as well as Earth)***

## **SUMMARY**

There is a very graphic detail about Qayamat (Judgment Day) in Quran I have verified these verses in the light of several documentaries that I watched on this subject.

It seems as if these scientist in fact read Quran before making these films about last days of our planet and solar system / or how it will all end.

There is not a single scenario that these scientist described about our solar system / universe that was not covered by Quran...

What is ironic that most of these smart people believe that it is far away in future (billions of years)

So let's see if that is the case or we are waiting for a surprise as Allah told us in Quran

Only Allah knows best...

AOA Sir,

I saw a dream in which i saw many toilets in a house where i m with my family. i dont remember whether they were dirty or not ,but i saw very much toilets i searched the toilet where i can maintain a privacy to pee etc i dont remember whether i pee or not but i saw many toilets. one more thing i saw some ill n weak pigeons in the cage. they are all of one species which are called "LAL Shirazi" but they are very weak as they are not able to get the proper food i gave them some rice as there were only rice available.

Please interpret this dream sir i will be very thankful to you as ever.

Kind Regards,

**?And do not do mischief on the earth, after it has been set in order? part of verse 56**

**(Al-A'araf): a new vision**

**Earth was polluted so God fixed it for us and ordered us not to spoil it any more but ordered us to supplicate him to avoid the evil of environmental corruption, let us read this new vision of the verse....**

**Quran and the history of Earth**

**The radiation measurements of Earth rocks has indicated that the age of this earth is within 4.6 billion years, where it was in its early stages a flaming giant wrapped with flaming rocks, and there are millions of meteorites that hit its surface every day, these hits were considered to be as a hammer knocking and settling this earth till it took its? spherical shape .**

**Then this earth has started to cool gradually , water vapor started to condense around it in the atmosphere, clouds started to be shaped and rains falling down heavily , which lead to cooling the Earth and the emergence of seas that enveloped the entire Earth.**

**Then the earth's crust has started to be formed and fissures started to appear on it which formed what is called tectonic plates, those plates began to move and to collide with each other forming mountains and rising rivers. Scientists believe that life has begun on Earth 3 billion years ago and they also say that a sudden extinction has occurred for many species of living organisms such as dinosaurs which have become extinct 65 million years ago after they have spoiled the earth , didmassacres and spilled each others blood .Then a huge meteor fell down and penetrated the Earth's atmosphere causing fires, destruction and pollution which led to the complete perdition of this kind of creatures.**

**Repeated Earth Pollution**

**When Scientists have studied the Earth history, they found that Earth at the beginning of its creation was highly contaminated with toxic gases, oxygen was not born yet, and the atmosphere consisted of poisonous gases and water vapor.**

**Then and over millions of years and as a result of physical reactions by the act of God , the earth's atmosphere has been purified from those gases and filled with clean air, thus God fit earth for life to be suitable to be lived on its surface .**

**Scientists inform us that the amount of carbon gas and methane gas were hundreds of times greater than it is today, which means that there was a corruption in the earth's atmosphere and God fixed it through the creation of plants which absorbed that gas to make its own food and through the dissolving of a part of that poisonous gas in the oceans . And at the same time God created a great amount of bacteria which produce oxygen in large quantities. This operation continued for millions of years where bacteria and plants acted as purification systems for the earth's atmosphere.**

One day earth was highly polluted but God fixed it to us, and scientists say that the ratio of carbon gas was hundreds of times more than it is today, then a complex physical and dynamic reaction has been occurring and as a result was the clean atmosphere, but studies indicate that there is a new increase in the ratio of carbon gas which is alarming and dangerous and natural disasters.

**The mercy of carbon gas**

**God with his mercy chose to purify our earth from the toxic carbon gas, that gas in an era of time was heavily covering the earth. Today its ratio is about 0.035 %, in other word, in every one hundred thousand grams of air there is 35 grams of carbongas.**

**If we looked at the other planets of the solar system, we notice that its atmosphere is corrupted and is not suitable for life. For example, the proportion of carbon gas on Mars is about 96% and its proportion on Venus is more than 98%, so when we find that the carbon gas proportion on earth is very low (0.035%) so it?s surely a mercy of God on us.**

**In a research held at the University of Chicago, scientists confirmed that carbon gas is really a mercy of God as it regulates the temperature on the surface of the earth, and that any change in the gas ratio would cause disasters and hurricanes.**

### **The mercy of oxygen**

**Why did God make the ratio of oxygen in the atmosphere about 21%? Of course this ratio is appropriate for the continuation of life.**

**Researchers says that if the ratio of oxygen in the atmosphere was less than 15% we will not be able to set on fire as the amount of oxygen would not be sufficient to complete the interaction. And if the amount of oxygen is more than 25% everything on earth will be burned without even a sparkle because of sun heat!**

**And the strangest thing that causes the wonder of scientists is that the micro-organisms on earth if they are exposed to direct sunlight, they die immediately. But with a mercy of God that he provided the atmosphere with a layer of ozone gas. That layer absorbs the ultraviolet radiations coming from the sun, and without this layer all creatures on earth have been dead from a long time, but in fact it was impossible for life to arise!**

**Of course, someone may ask a question: How do scientists know about the amount of oxygen or carbon gases in the earths? atmosphere millions of years ago? During getting samples of ice in the Alps for example, scientists have found that this ice contains bubbles of gas. And after examination of those bubbles with what it contains of elements which is called radioactive isotopes, and by the amount of remaining radiation in those elements, they can calculate the age of those bubbles and how was the atmosphere at that time.**

### **A future with bad news !**

**Studies have shown that the ratio of carbon gas now in the atmosphere is 30% higher than what was it in the previous ages, and the ratio of methane gas is 100% higher than what was it in previous years.**

**The proportion of carbon gas increases with a rate of 1% every year, and that increase is very dangerous, this rapid increase is because of the human activity in burning fuel and energy production. Therefore, if that increase continues as it is now, so during the next 100 years the ratio of gas carbon in the atmosphere will be higher than ever before in the earth history during the last million years.**

**The increase in the ratio of carbon gas will cause sudden climate changes, and that will cause some natural disasters, and as a result of that a famine could sweep the world especially the poor part of it, sea level will rise several meters due to melting of Icebergs in north and south Antarctic. And that will cause the sinking of whole coastal cities as a result of that high rise.**

**The increase in the ratio of carbon in the atmosphere during previous ages of earth was due to the geological phenomena like volcanoes and the gases emerged from them, and despite of that massive amounts of gases , it is still much less than today?s pollutants released by human.**

A curve representing the increase of carbon gas ratio from 1958 till 2004 showing the rapid increase in the ratio of this poisonous gas, as the ratio increased from 300 parts in one million to 400 parts in one million during the last 50 years! **Quran talks about the earth pollution cycle**

**Recent studies of the earth history indicates there is a cycle for the earths? atmosphere, where one day it was full of poisonous gases, then the ratio of those gases declined gradually according to delicate and complex operations mending that imbalance in the atmosphere and without those operations it was impossible for life to be on earth .**

**Today, scientists inform us that the rate of pollution has increased once again so we find them uttering warning cries for human to not to pollute this earth because that will lead to a lot of environmental disasters .So Quran has preceded those scientists to refer to this scientific fact as Quran has confirmed that the earth was one day not suitable for life then God fixed it and ordered us not to corrupt it and to supplicate him to prevent us evil of disasters . God said :(And do not do mischief on the earth, after it has been set in order, and invoke Him with fear and hope. Surely, Allah?s Mercy is (ever) near unto the good-doers) verse 56 (Al-A'araf)**

**This verse included several signs:**

- 1. A sign to avoid corruption and pollution in the earth as he says: (do not do mischief on the earth).**

**A sign that one day earth was polluted then God fixed it to us and ordered us not to corrupt it after it has been set straight as he says :( after it has been set in order).**

**A sign to the importance of supplications in this era as nowadays the environmental corruption is threatening the earth with natural disasters like hurricanes, tsunamis and acidic rain, etc., as he says: (and invoke Him with fear and hope).**

**A sign to not lose hope of Gods? mercy and to regard as a good omen and that God is able to repair that environmental imbalance as he says: (Surely, Allah?s Mercy is (ever) near unto the good-doers).**

**500 scientists agree on this fact !**

**In the 2nd conference which was held in Paris in the beginning of 2007 , more than 500 scientists gathered from all over the world and they drew conclusions that the environmental corruption and pollution have covered land, sea and even human, plants and animals and that human is responsible for that corruption and there is a possibility to return back to the normal ratios for carbon gas in the atmosphere.**

**The most amazing thing is that Quran summarized for us these results in only one verse which refers that the spread of that corruption in land and sea is because of human as he says:(Evil (sins and disobedience to Allah) has appeared on land and sea because of what the hands of men have earned (by oppression and evil deeds), that He (Allah) may make them taste a part of that which they**

**have done, in order that they may return (by repenting to Allah, and begging His Pardon) verse 41(Al-Room)**

Hurricanes and their dangerous outcomes are the most important results of the environmental pollution, and this is one of the results of the corruptions that Quran has warned us from as he says: (And do not do mischief on the earth, after it has been set in order, and invoke Him with fear and hope. Surely, Allah's Mercy is (ever) near unto the good-doers) verse 56 (Al-A'araf)

**What is corruption?**

**One of the meanings of corruption in Almoheet dictionary is (Infertility) . Infertility happens as a result of cessation of rain or natural**

**disasters which kills plants and animals, so God has ordered human not to be a reason in the destruction and corruption of the earths? atmosphere. And that what Quran has told us about anyone who seeks to ruin the earth balanced system as he says (And when he turns away (from you "O Muhammad "), his effort in the land is to make mischief therein and to destroy the crops and the cattle, and Allah likes not mischief) verse 205 (Al-Baqarah)**

**So there are many kinds of corruption, ethical corruption and environmental corruption. And these verses has been revealed in a time when no one knows that one day the ratio of pollution on earth will be so high and indicates to the corruption of the earths? atmosphere.**

**The Prophet brings good news!**

**Under these dark signs of the earths? future, a generous prophetic indication full of hope for us the Muslims as he assured to us that Arab countries most of which are deserts will be back as rivers and pastures, as he says peace be upon him :(The Day of Resurrection will not come till Arab land return as rivers and pastures)[Narrated by Muslim].**

**In this noble saying are good news for Muslims that rivers, water and rains will increase and will be a reason in making these deserts full of forests, trees and lakes. And that?s what scientists confirm in their recent researches.**

**Therefore, we should increase our supplications and asking for forgiveness from God as God says to his messenger Noah (I said (to them) Ask forgiveness from your Lord, verily, He is Oft-Forgiving He will send rain to you in abundance, And give you increase in wealth and children, and bestow on you gardens and bestow on you rivers) Verses (10 -12) Noah.**

Satellite Photographs refer that the Empty Quarter desert was one day covered with a cover of dense plants, rivers and lakes were spreading all over it, and in the future it will become once again full of rivers and pastures. Source NASA

### **Summary of the Research**

**From God? mercy that he created for us this earth, it was full of corruption, so He fitted it for us and made it suitable for life , comfortable to live on and thanks God for his mercy. He ordered us not to corrupt in it or destroy that environmental balance after God has fixed it for us. He ordered us also to increase supplications to prevent us from evil of awaiting environmental disasters as he says: (And do not do mischief on the earth, after it has been set in order, and invoke Him with fear and hope. Surely, Allah?s Mercy is (ever) near unto the good-doers) verse 56 (Al-A'araf).**

**Oh God, we seek your protection from every thing your are taking its forelock, my God is on the right path**
