[Bazm-e-Yaaraan] scientific Miracles of Qur'an

# BAZM-E-YAARAAN

The origin of the universe is described in the Qur'an in the following verse:

"He is the Originator of the heavens and the earth."(The Qur'an, 6:101)

This information given in the Qur'an is in full agreement with the findings of contemporary science. The conclusion that astrophysics has reached today is that the entire universe, together with the dimensions of matter and time, came into existence as a result of a great explosion that occurred in no time. This event, known as "The Big Bang" proved that the universe was created from nothingness as the result of the explosion of a single point. Modern scientific circles are in agreement that the Big Bang is the only rational and provable explanation of the beginning of the universe and of how the universe came into being.

Before the Big Bang, there was no such thing as matter. From a condition of non-existence in which neither matter, nor energy, nor even time existed, and which can only be described metaphysically, matter, energy, and time were all created. This fact, only recently discovered by modern physics, was announced to us in the Qur'an 1,400 years ago.

The sensitive sensors on board the COBE space satellite which was launched by NASA in 1992, captured evidentiary remnants of the Big Bang. This discovery served as evidence for the Big Bang, which is the scientific explanation of the fact that the universe was created from nothing.

## *The Expansion of the Universe*

**In the Qur'an, which was revealed 14 centuries ago at a time when the science of astronomy was still primitive, the expansion of the universe was described like this:**

**"And it is We who have constructed the heaven with might, and verily, it is We who are steadily expanding it."  
(The Qur'an, 51:47)**

**The word "heaven", as stated in this verse, is used in various places in the Qur'an with the meaning of space and universe. Here again, the word is used with this meaning. In other words, in the Qur'an it is revealed that the universe "expands". And this is the very conclusion that science has reached today.**

**Edwin Hubble with his giant telescope**

**Until the dawn of the 20th century, the only view prevailing in the world universe has a constant nature and it has existed since infinite time". observations, and calculations carried out by means of modern have revealed that the universe in fact had a beginning, and that it**

**of science was that "the The research, technology, however, constantly "expands".**

**At the beginning of the 20th century, the Russian physicist Alexander Belgian cosmologist Georges Lemaitre theoretically calculated that the motion and that it is expanding.**

**Friedmann and the universe is in constant**

**This fact was proved also by observational data in 1929. While telescope, Edwin Hubble, the American astronomer, discovered that the constantly moving away from each other. A universe where everything constantly moves away from everything else implied a constantly expanding universe. The observations carried out in the following years verified that the universe is constantly expanding. This fact was explained in the Qur'an when that was still unknown to anyone. This is because the**

**Georges Lemaitre**

**observing the sky with a stars and galaxies were**

**Qur'an is the word of God, the Creator, and the Ruler of the entire universe.**

From the moment of the big bang, the universe has been constantly expanding at a great speed. Scientists compare the expanding universe to the surface of a balloon that is inflated.

## *The Splitting Asunder of "The Heavens and The Earth"*

Another verse about the creation of the heavens is as follows:

"Do not the Unbelievers see that the heavens and the earth were joined together (as one unit of creation), before We clove them asunder, and We made from water every living thing. Will they not then believe?"  
(The Qur'an, 21:30)

The word *ratq* translated as "sewn to" means "mixed in each, blended" in Arabic dictionaries. It is used to refer to two different substances that make up a whole. The phrase "we unstitched" is the verb *fataqa* in Arabic and implies that something comes into being by tearing apart or destroying the structure of *ratq*. The sprouting of a seed from the soil is one of the actions to which this verb is applied.

Let us take a look at the verse again with this knowledge in mind. In the verse, sky and earth are at first subject to the status of *ratq*. They are separated (*fataqa*) with one coming out of the other.. Intriguingly, when we remember the first moments of the Big Bang, we see that a single point included all the matter in the universe. In other words, everything, including "the heavens and earth" which were not created yet, were included in this point in a condition of *ratq*. This point exploded violently, causing its matter to *fataqa* and in the process created the structure of the whole universe.

When we compare the expressions in the verse with scientific findings, we see that they are in perfect agreement with each other. Interestingly enough, these findings were not arrived at until the 20th century.

The picture represents the Big Bang, which revealed once again that God created the universe from

nothingness. The Big Bang is a theory that has been proven with scientific evidence. Although some scientists tried to advance alternative theories against the Big Bang, scientific evidence caused the theory to be completely accepted by the scientific community.

## *Orbits*

While referring to the Sun and the Moon in the Qur'an, it is emphasized that each moves in a definite orbit.

**"It is He Who created the night and the day, and the sun and the moon. They swim along, each in an orbit. "  
(The Qur'an, 21:33)**

These facts communicated in the Qur'an have been discovered by astronomical observations in our age. According to the calculations of experts on astronomy, the Sun is traveling at the enormous speed of 720,000 kilometers an hour in the direction of the star Vega in a particular orbit called the Solar Apex. This means that the sun travels roughly 17,280,000 kilometers a day. Along with the Sun, and

all planets and satellites within the gravitational system of the Sun also travel the same distance. In addition, all the stars in the universe are in a similar planned motion.

That the entire universe is full of paths and orbits such as this one, is written in the Qur'an as follows:

**"By the sky full of paths and orbits."**  
(The Qur'an, 51:7)

There are about 200 billion galaxies in the universe, consisting of nearly 200 billion stars in each. Most of these stars have planets, and most of those planets have satellites. All of these heavenly bodies move in very precisely computed orbits. For millions of years, each has been "swimming" along in its own orbit in perfect harmony and order with all the others. Moreover, many comets also move along in the orbits determined for them.

The orbits in the universe do not only belong to celestial bodies. The galaxies also travel at enormous speeds in computed, planned orbits. During these movements, none of these celestial bodies cuts across another's path, or collides with another.

Surely at the time the Qur'an was revealed, mankind did not possess today's telescopes or advanced observation technologies to observe millions of kilometres of space, nor the modern knowledge of physics or astronomy. Therefore, at that time, it was not possible to determine scientifically that space is "full of paths and orbits" as stated in the verse. However, this was openly declared to us in the Qur'an that was revealed at that time:-because the Qur'an is the word of God.

Like many other comets in the universe, Halley's comet, seen above, also moves in a planned orbit. It has a specific orbit and it moves in this orbit in a perfect harmony with other celestial bodies.

All celestial bodies including planets, satellites of these planets, stars, and even galaxies have their own orbits that have been determined with very delicate computations. The One Who established this perfect order and maintains it is God, Who created the entire universe.

*The  
Roundness  
of the  
Earth*

**"He has created the Heavens and the Earth  
for Truth. He wraps the night up in the day,  
and wraps the day up in the night."  
(The Qur'an, 39:5)**

In the Qur'an, the words used for describing the universe are quite remarkable. The Arabic word that is translated as "to wrap" in the above verse is "takwir". In English, it means "to make one thing lap over another, folded up as a garment that is laid away". (For instance, in Arabic dictionaries this word is used for the action of wrapping one thing around another, in the way that a turban is put on.)

The information given in the verse about the day and the night wrapping each other up includes accurate information about the shape of the world. This can be true only if the earth is round. This means that in the Qur'an, which was revealed in the 7th century, the roundness of the world was hinted at.

It should be remembered, however, that the understanding of astronomy of the time perceived the world differently. It was then thought that the world was a flat plane and all scientific calculations and explanations were based on this belief. The verses of the Qur'an, however, include information that we have learned only in the past century. Since the Qur'an is God's word, the most correct words were used in it when it comes to describing the universe.

## *The Protected Roof*

In the Qur'an, God calls our attention to a very interesting attribute of the sky:

**"We made the sky a preserved and protected roof yet still they turn away from Our Signs.."  
(The Qur'an, 21:32)**

This attribute of the sky has been proved by scientific research carried out in the 20th century.

The atmosphere surrounding the earth serves crucial functions for the continuity of life. While destroying many meteors big and small as they approach the earth, it prevents them from falling to earth and harming living things.

In addition, the atmosphere filters the light rays coming from space that are harmful to living things. Interestingly, the atmosphere lets only harmless and useful rays- visible light, near ultraviolet light, and radio waves pass through. All of this radiation is vital for life. Near ultraviolet rays, which are only partially let in by the atmosphere, are very important for the photosynthesis of plants and for the survival of all living beings. The majority of the intense ultraviolet rays emitted

The atmosphere only lets rays required for life reach the Earth. Ultraviolet rays, for example, make it to the world only partially. This is the most appropriate range to allow plants to make photosynthesis and eventually for all living things to survive.

from the sun are filtered out by the ozone layer of the atmosphere and only a limited-and essential-part of the ultraviolet spectrum reaches the Earth.

The protective function of the atmosphere does not end here. The atmosphere also protects the earth from the freezing cold of the space, which is about minus 270° C.

This illustration shows meteors that are about to crash into the earth. The celestial bodies wandering in space could pose a serious threat to the Earth. Yet, God, He Who creates most perfectly, has made the atmosphere a protective roof. Thanks to this special

protection, most meteoroids do not harm the Earth, as they fall to pieces in the atmosphere.

Most people looking at the sky do not think about the protective aspect of the atmosphere. They almost never think what kind of a place the world would be like if this structure did not exist. The above photo belongs to a giant crater caused by a meteor that fell in Arizona, in the USA. If the atmosphere did not exist, millions of meteoroids would fall to the Earth and the Earth would become an inhabitable place. Yet, the protective aspect of the atmosphere allows living things to survive in safety. This is certainly God's protection of people, and a miracle proclaimed in the Qur'an.

The energy released in a Sun burst is so powerful that the human mind would hardly comprehend it: A single burst is equivalent to 100 billion atomic bombs similar to the one dropped on Hiroshima. The world is protected from the destructive effects of this energy by the atmosphere and the Van Allen Belts.

As we move from the Earth, which is perfectly fitted for human life, beyond the atmosphere into the space, we come across a freezing cold. The world is protected from the freezing cold of space, which is around -270 degrees, by the help of the atmosphere.

The magnetosphere layer, formed by the magnetic field of the Earth, serves as a shield protecting the earth from celestial bodies, harmful cosmic rays and particles. In the above picture, this magnetosphere layer, which is also named Van Allen Belts, is seen. These belts at thousands of kilometres above the earth protect the living things on the Earth from the fatal energy that would otherwise reach it from space.

All these scientific findings prove that the world is protected in a very particular way. The important thing is that this protection was made known in the Qur'an in the verse "**We made the sky a preserved and protected roof**" 1,400 years ago.

It is not only the atmosphere that protects the Earth from harmful effects. In

addition to the atmosphere, the Van Allen Belt, a layer caused by the magnetic field of the Earth, also serves as a shield against the harmful radiation that threatens our planet. This radiation, which is constantly emitted by the Sun and other stars, is deadly to living things. If the Van Allen belt did not exist, the massive outbursts of energy called solar flares that frequently occur in the Sun would destroy all life on Earth.

Dr. Hugh Ross has this to say on the importance of Van Allen Belts to our lives:

In fact, the Earth has the highest density of any of the planets in our Solar System. This large nickel-iron core is responsible for our large magnetic field. This magnetic field produces the Van-Allen radiation shield, which protects the Earth from radiation bombardment. If this shield were not present, life would not be possible on the Earth. The only other rocky planet to have any magnetic field is Mercury - but its field strength is 100 times less than the Earth's. Even Venus, our sister planet, has no magnetic field. The Van-Allen radiation shield is a design unique to the Earth.<sup>(1)</sup>

The energy transmitted in just one of these bursts detected in recent years was calculated to be equivalent to 100 billion atomic bombs similar to the one dropped on Hiroshima. Fifty-eight hours after the burst, it was observed that the magnetic needles of compasses displayed unusual movement and 250 kilometers above the earth's atmosphere, the temperature suddenly increased to 2,500° C.

In short, a perfect system is at work high above the Earth. It surrounds our world and protects it against external threats. Scientists only learned about it recently, yet centuries ago, God informed us in the Qur'an of the world's atmosphere functioning as a protective shield.

## *The Returning Sky*

The verse 11 of Sura Tarik in the Qur'an, refers to the "returning" function of the sky..

**"By Heaven with its cyclical systems."  
(The Qur'an, 86:11)**

This word interpreted as "cyclical" in Qur'an translations also has meanings of "sending back" or "returning".

As known, the atmosphere surrounding the Earth consists of many layers. Each layer serves an important purpose for the benefit of life. Research has revealed that these layers have the function of turning the materials or rays they are exposed to back into space or back down to the Earth. Now let us examine with a few examples of this "recycling" function of the layers encircling the Earth.

The troposphere, 13 to 15 kilometers above the Earth, enables water vapor rising from the surface of the Earth to be condensed and **turn back** as rain.

The ozone layer, at an altitude of 25 kilometers, reflects harmful radiation and ultraviolet light coming from space and **turns both back** into space.

The ionosphere, **reflects** radio waves broadcast from the Earth **back** down to different parts of the world, just like a passive communications satellite, and thus makes wireless communication, radio, and television broadcasting possible over long distances.

The magnetosphere layer **turns** the harmful radioactive particles emitted by the

Sun and other stars **back** into space before they reach the Earth.

The fact that this property of the atmosphere's layers, that was only demonstrated in the recent past was announced centuries ago in the Qur'an, once again demonstrates that the Qur'an is the word of God.

The presence of water is essential for life on Earth. One of the factors acting in the formation of water is the Troposphere, one of the layers of the atmosphere. The troposphere layer enables water vapour rising from the surface of the Earth to be condensed and turn back down to the Earth as rain.

The atmosphere layer that blocks the rays that might be fatal to life on Earth is the Ozonosphere. The Ozonosphere turns harmful cosmic rays like ultraviolet back to space, hence preventing them from reaching the Earth and harming life.

Each layer of the atmosphere has beneficial attributes for human beings. The Ionosphere layer, one of the upper layers of the atmosphere, for example, reflects radio waves broadcast from a certain centre back down to the Earth, thus enabling broadcasts to be received from long distances.

## *The Layers of the Atmosphere*

One fact about the universe revealed in the verses of the Qur'an is that the sky is made up of seven layers.

**"It is He Who created everything on the earth for you and then directed His attention up to heaven and arranged it into seven regular heavens. He has knowledge of all things."  
(The Qur'an, 2:29)**

**"Then He turned to heaven when it was smoke. In two days He determined them as seven heavens and revealed, in every heaven, its own mandate."  
(The Qur'an, 41:12)**

The word "heavens", which appears in many verses in the Qur'an, is used to refer to the sky above the Earth, as well as the entire universe. Given this meaning of the word, it is seen that the Earth's sky, or the atmosphere, is made up of seven layers.

**The Earth has all the attributes that are needed for life. One of them is the atmosphere, which serves as a shield protecting living things. Today, it is an established fact that the atmosphere is made up of different layers lying on top of one another. Just as it is described in the Qur'an, the atmosphere is made up of**

**exactly seven layers. This is  
certainly one of the  
miracles of the Qur'an.**

Indeed, today it is known that the world's atmosphere consists of different layers that lie on top of each other. Furthermore, it consists, just as is described in the Qur'an, of exactly seven layers. In a scientific source, the subject is described as follows:

The position of Islam is that even one drop of alcohol is haram for a Muslim to consume. The following verses from the Holy Quran make it clear that alcohol is forbidden for the Believers:

Dear All

As its well known to all of us that consuming alcohol is prohibited in Islam but I have an european friend who has converted to Islam from Christianity who says that its only prohibited in Islam to consume alcohol to the extend if one loses his senses otherwise consuming a small quantity which does not effects the sense of an individual is not prohibited.

I read somewhere that it was cleared in 3 steps in the Holy Quran that consuming alcohol or anything which makes a person lose his control over himself is prohibited, can anybody send me the exact reference from the Quran so that I can show my friend and convince him.

**Bismillaahir Rahmaanir Raheem**

Assalaamu `Alaykum wa Rahmatullaahi wa Barakaatahu,

Dear Brother Firoz,

I pray you are well and in strength of eemaan by the grace of Allaah Subhaanahu wa Ta`aala.

Inshaa`Allaah, you can start by telling your friend that it is affirmed by our Islamic sharee`ah that it came to bring and increase good things, and to ward off and reduce harmful things. Whatever is beneficial or mostly beneficial is permissible (halaal) and whatever is harmful or mostly harmful is forbidden (haraam). Alcohol undoubtedly falls into the second category.

The Prophet sall Allaahu`alayhi wa sallam said: *"Every intoxicant is khamr, and every khamr is haraam (forbidden)."* (Saheeh Muslim #2003). If this is the case, then **alcohol** is considered to be forbidden and to come under the heading of "khamr" (wine, whisky, brandy, beer etc.) which people drink for relaxation or enjoyment.

Allaah Subhaanahu wa Ta`aala says in Soorah Al-Baqarah 2:219:

***"They ask you (O Muhammad) concerning alcoholic drink and gambling. Say: 'In them is a great sin, and (some) benefits for men, but the sin of them is greater than their benefit'"*** (al-Baqarah 2:219)

The harmful and evil effects of alcohol are well known to all people, to knowledgeable and ignorant alike. Among the harmful effects of alcohol is that which was mentioned by Allaah Subhaanahu wa Ta`aala in Soorah Al-Maa`idah 5:90-91:

**90 "O you who believe! Intoxicants (all kinds of alcoholic drinks), and gambling, and Al-Ansaab (stone altars for sacrifices to idols, jinn, etc), and Al-Azlaam (arrows for seeking luck or decision) are an abomination of Shaytaan's handiwork. So**

***avoid (strictly all) that (abomination) in order that you may be successful.***

***91 Shaytaan wants only to excite enmity and hatred between you with intoxicants (alcoholic drinks) and gambling, and hinder you from the remembrance of Allaah and from As-Salaah (the prayer). So, will you not then abstain?"***

In these two verses Allaah Subhaanahu wa Ta`aala emphatically forbids alcohol, when He Ta`aala mentions it in conjunction with Al-Ansaab (stone altars for sacrifices to idols, jinn, etc), and Al-Azlaam (arrows for seeking luck or decision), which were symbols of shirk that were widespread in the Arabian peninsula before Islam, and He Ta`aala describes it as being the Shaytaan's handiwork, which is immorality and evil. And Allaah Subhaanahu wa Ta`aala commands His mu`minoos and mu`minaat to avoid it and describes that as being the means that leads to success. And He describes its spiritual harm as hindering man from carrying out the obligations and duties enjoined by sharee`ah, namely remembrance of Allaah (dhikr) and prayer.

Alcohol leads to many harmful things, and deserves to be called "the mother of all evils" – as it was described by our Prophet sall Allaahu`alayhi wa sallam, who said: *"Alcohol is the mother of all evils."* A hasan hadeeth quoted by Imaam al-Albaani in al-Silsilah al-Saheehah, #1854. And the Messenger of Allaah sall Allaahu`alayhi wa sallam said: *"Alcohol is the mother of all evils, the greatest of major sins. Whoever drinks it may end up committing incest with his mother, his maternal aunt and his paternal aunt."* This hadeeth is hasan on the basis of corroborating evidence, as stated by Imaam al-Albaani in al-Silsilah al-Saheehah, 1853.

If sin is present and it is great, then it is forbidden. Undoubtedly **alcohol** is harmful to the mind and body, and Allaah Subhaanahu wa Ta`aala has forbidden everything that harms the body and mind, and saps the strength. Everything that is harmful to a person is not permitted, because Allaah Ta`aala says Soorah An-Nissa' 4:29:

***"And do not kill yourselves"***

And in Soorah Al-Baqarah 2:195: ***" ... and do not throw yourselves into destruction"***

With regard to your ex-Christian friend's saying *"that its only prohibited in Islam to consume alcohol to the extent if one loses his senses otherwise consuming a small quantity which does not effects the sense of an individual is not prohibited,"* - this is a dreadfully flawed understanding which pays no attention to the ways of the accursed Shaytaan wa a`oodhu billaahi minhum, who seeks to distance people from the Lord of the Worlds. It is also the words of one who does not know – or perhaps chooses to ignore – how a drinker's relationship with alcohol begins until he becomes drunk or addicted.

The Shaytaan wa a`oodhu billaahi minhum gradually leads a person from a little to a lot, from minor to major, from sin to kufr, as much as he can, step by step. This is what the Allaah Subhaanahu wa Ta`aala refers to in Soorah An-Noor 24:21, where He Ta`aala says: ***"O you who believe! Follow not the footsteps of Shaytaan. And whosoever follows the footsteps of Shaytaan, then, verily, he commands Al-Fahsha' [i.e. to commit indecency (illegal sexual intercourse) ], and Al-Munkar [disbelief and polytheism (i.e. to do evil and wicked deeds; and to speak or to do what is forbidden in Islam)]. And had it not been for the Grace of Allaah and His Mercy on you, not one of you would ever have been pure from sins. But Allaah purifies (guides to Islam) whom He wills, and Allaah is All-Hearer, All-Knower"***

It is well known that people are not all the same in their levels of understanding of what is beneficial and what is harmful, and their levels of will power are not the same either, when it comes to choosing what is beneficial and avoiding what is harmful. The behaviour of individuals and societies cannot be controlled if things are left to each person's choice.

If things are left to people's choice then the harm that results from drinking alcohol is not limited only to the one who drinks, so that he could be left to his own devices and choose whatever he wants for himself. Rather the harmful results affect everyone. The diseases that result from alcohol weaken society as a whole. The productivity of the drunkard is decreased because of his drunkenness, which affects others. The economy is affected as a result of the money spent on treating him, which also affects others. Moreover there are crimes which result from this addiction. In a World Health Organization report on violent crimes in 30 countries, including the USA and the UK, it says that 86% of murders and 50% of rapes are carried out under the influence of alcohol. There are many similar, well-known statistics on such topics in various countries around the world.

With regard to road accidents, the statistics are even more well-known. In 1965 – for example – there were 49,000 deaths on roads in the US, and 1,800,000 cases of permanent disability. Public health officials at the time estimated that half of these deaths were caused by alcohol. The losses resulting from these deaths in that year alone were valued at 8900 million dollars.

In Chile, in South America, 70% of traffic accidents in 1966 were caused by drunkenness. In Paris between 10 and 15 % of all accidents were found to have been caused by alcohol.

Moreover, you may respond to your friend's statement by asking:

"Why don't you explain how evil it is to steal and then leave people to make their own choice, with no force or punishment?" The same could be said of killing and bribery... But then society would become a dangerous and barbaric place, governed by the law of the jungle.

This question itself may be directed against all the laws and systems which people follow in their lives.

The main reason why people deviate from the religion of Allaah Subhaanahu wa Ta`aala, and go against the Laws that He Ta`aala has prescribed for us, is this idea – the idea that people can be left with no commands to follow or prohibitions to heed, even though adhering to commands and prohibitions is what is meant by submission to Allaah Subhaanahu wa Ta`aala (`uboodiyyah) in its simplest form. This is the pure right of the Creator because He is the Creator, and it is the primary duty of the created being, because he is created. The Lord of the Worlds says (interpretation of the meaning):

***"Does man think that he will be left neglected (without being punished or rewarded for the obligatory duties enjoined by his Lord Allaah on him)?"*** (Al-Qiyaamah 75:36).

i.e., does man think that his Lord will leave him alone, with no obligations or commands or prohibitions, then He will ignore him in his grave with no resurrection, no gathering, no reckoning? What then would be the point of servitude to the Lord of the Worlds, if there were no commands or prohibitions, no rewards or punishment? How then would anyone enter Jannah?

You may also ask your ex-Christian friend "wasn't **alcohol** strictly forbidden in your Holy Book the Bible, and was it not mentioned repeatedly in the Old Testament in which you used to believe? If you do not know about that, then please let me tell you or read this":

*"Woe to those who are champions at drinking wine and champions at mixing drinks."* [Isaiah 5:22 (New International Version)]

*"Do not join those who drink too much wine or gorge themselves on meat, for drunkards and gluttons become poor."* [Proverbs 23:20-21 (New International Version)]

*"Then the LORD said to Aaron: 'You and your sons are not to drink wine or other fermented drink whenever you go into the Tent of Meeting, or you will die. This is a lasting ordinance for the generations to come. You must distinguish between the holy and the profane, between the unclean and the clean.'" [Leviticus 10:8-10 (New International Version)]*

Inform your friend, that even in the New Testament of the Bible, there are some verses which point to that:

*"But now I am writing to you that you must not associate with anyone who calls himself a brother but is sexually immoral or greedy, and idolater or a slanderer, a drunkard or a swindler. With such a man do not even eat."* [1 Corinthians 5:11 (New International

Version)]

*"Do you not know that the wicked will not inherit the kingdom of God? Do not be deceived: Neither the sexually immoral nor idolaters nor adulterers nor male prostitutes nor homosexual offenders nor thieves nor the greedy nor drunkards nor slanderers nor swindlers will inherit the kingdom of Gos."* [1 Corinthians 9:9-10 (New International Version)]

*"Do not get drunk with wine, which leads to debauchery. Instead, be filled with the Spirit."* [Ephesians 5:18 (New International Version)]

Should your friend respond to you and claim that this prohibition in the Bible was abrogated and that it became permissible, then ask him why does he object to the idea that the Qur`aan abrogated that permission and that Allaah has forbidden it to people in this world?

Tell your friend that Allaah Subhaanahu wa Ta`aala forbids that there should be any contradiction in His Book or His Laws, for He is the All-Knowing, All-Wise, All-Aware. Contradictions come from others, like your friend who claimed - "*... consuming a small quantity which does not effects the sense of an individual is not prohibited,*" not from Allaah, may He be exalted. Allaah Subhaanahu wa Ta`aala says:

***"Do they not then consider the Qur`aan carefully? Had it been from other than Allaah, they would surely, have found therein many a contradiction"*** (An-Nisaa' 4:82)

Contradictions come from human beings when they try to misinterpret or twist the Revealed Words, and from their misunderstanding when they fail to grasp the intended meaning or the wisdom behind the Allaah Ta`aala's Words. The Book of Allaah Subhaanahu wa Ta`aala is protected by Him, as He says: ***"Verily, We, it is We Who have sent down the Dhikr (i.e. the Qur`aan) and surely, We will guard it (from corruption)."*** (Al-Hijr 15:9).

This is sufficient evidence for anyone who is wise.

We ask Allaah Subhaanahu wa Ta`aal to guide your friend to the truth and help him to give up specious arguments. May Allaah Subhaanahu wa Ta`aala guide you in your da`wah to your friend, and grant you success in your endeavours. And Allaah Subhaanahu wa Ta`aal is the source of strength, and there is no Lord but He. Aameen.

Your sister,

**Salam, Tariq**

**Death in a dream represents the END OF A PHASE OR A SITUATION. Now the fact that it is the Doctor Sahib passing away means that the situation WITH HIM is going to end. This could mean that the therapy has been discontinued as you say or that the new situation/treatment may not be as satisfactory for your wife. I can't say much more because I don't know the exact circumstances but your wife's crying and not being sure about medicine is not a good omen. Let's hope that it's an 'inverse' dream that has the opposite meaning!**

Respected Dr Umer Sahib

I really appreciate your prompt reply and thank you so much for your help . I was looking for appropriate person and seeking contacts to help me in this respect and your kind guidance in this respect would be very helpful.

Prior to narrate my dream, I would like to let u know briefly about our prevailing circumstances. Actually few months back my wife is diagnosed with cervix Carcinoma (Cancer) , Doctors suggested Radiation therapy but my wife was not willing for it therefore sought alternative therapy from one of Homeopathic Doctor and his therapy remained continued till this dream and now discontinued.

My Wife Dream (Earlier).

She saw that we are going to gather and passing through a place where that Homeopathic Doctor's clinic exists (though that location seems different than his true clinic which is in his house in fact) so I am asking my wife to stand here let see if doctor is here to say salaam to him. I took step forward and upon

my inquiry if doctor is there someone informed me that Doctor sahib is **passed away!** to hear so I silently cry and re-informed to my wife while coming back to her.

My Dream (Few days Later):

I can see two plumbing workers doing their job on galvanized pipes and I am just talking with them regarding their work (Which I do not remember, What I spoke to them exactly) both of them are standing just near to our apartment building, immediately I saw my wife coming out and crying loud .I asked her the reason and she informed me that her Doctor is **passed away** , now who will give her medicine and some how I can see rear side of photo frame perhaps she has taking photo of doctor too.

Summary:

In the both of dreams significance appears a death of Doctor who is treating my wife and the dream is seen both of us in way that when she saw I was crying and when I saw she was crying.

Dr Sahib I would be grateful if You please help in this respect.

**Gift a Qur'an**

**All praise is due to Allah (ST) the Sustainer of the universe. Who said in His Book:**

***“Indeed, there has come to you from Allah a light and a plain Book (this Quran).”***

**Peace and blessings of Allah (ST) be on the noble Prophets and Messengers and**

our Prophet Muhammad (*Sallahu-Alaihi wa-Sallam*), who said:

‘Amongst you, they are the virtuous, who learn the Quran and teach it to others.’

Previous divine books came for a particular community but the Quran has come for the whole Universe as mentioned in the Qur’an:

*“And We have sent thee (O Muhammed, peace be upon Him) not but as a mercy for the Alamin (mankind,jinn and all that exists).”*

Our beloved Prophet (SAS) Said: ‘Even if one word (of Allah has reached you) from me convey it to others.’

That means it is not only the responsibility of the religious scholars to convey the message of Allah to others but it is the responsibility of each and every Muslim to convey

the message of Allah (ST) to others, as much as he knows.

Muhammed (SAS) is the last Messenger and the Qur’an is the Last and final revelation of Allah (ST) for the universe, as mentioned in the Qur’an:

*“Muhammed (SAS) is not the father of any of you men, but he is the Messenger of Allah and the last (end) of the Prophets.”*

So, after Muhammad (SAS) if any one claims a prophet has come he is a liar. So the Qur’an revealed on Muhammad (SAS) is the last and final Divine Book. After this there

will be no Divine Book, i.e. why Allah (ST) has promised to preserve it as it is till the end of this Universe.

*“Verily, We, it is We Who have sent down the Dhikr (i.e. the Quran) and surely, We will guard it (from corruption).”*

That is why the Quran is the only Divine Scripture in the world even after >1400 years of its revelation it is preserved in its original form without any change of a single letter in it. Today no other Divine Book is in its original form. For example Bible has been revised many times.

There are >32 different versions of ‘*BHAGWAD GEETA*’ (Hindus’ holy scripture)

The people of other religions are working hard to spread their religion.

For e.g. the Christians:

You can find a copy of Bible in most of the hotel rooms and even in small villages.

Why the Quran is not found?

You see MISSIONARY SCHOOLS in many small villages all over the world.

How many SCHOOLS are run by Muslim Organizations?

You see MISSIONARY DISPENSARIES in many small villages all over the world.

How many DISPENSARIES are run by Muslim Organizations?

**How many TV Channels are run by MISSIONARIES?**

**How many TV Channels are run by ISLAMIC Organizations?**

**People of other religions are working hard to spread the message which is FALSE.**

**Then what we Muslims are doing?**

**Are we as active as the Christians in spreading the message of Allah (ST) which is the whole truth?**

**If not Why? What is lacking?**

**What is the reason for this shortcoming?**

**What is the Christian population of the world?**

**What is the Muslim population of the world?**

**More or less the Same!**

**Then why are we behind them in spreading the True Message?**

**Are we so poor, that we can not even gift a Quran Translation every year?**

**Is it not our duty to convey the message of Allah (ST)?**

**In to how many Languages is the Bible translated? In 438 languages complete Bible and in 2454 languages parts of it!**

**In to how many Languages is the Quran translated? 102**

**Why? Where is the shortcoming?**

**Who are distributing the Bible? NGOs?**

**One person can not do the whole Job!**

**It is the duty of all Muslims to spread the Message of Allah (ST) as ordained in the Qur'an Surah *Al-'Asr* (103:1-3.)**

**1. By *Al-'Asr* (the Time). 2. Verily, man is in loss, 3. Except those who believe and do righteous deeds, and recommend one another the truth and recommend one another patience in adversity.**

**Since 1405 H. (1984 CE) how many Quran Translations are distributed by the KFQPC, of Madinah Munawwarah?**

**Can they alone do the entire Job?**

**How many Christian NGOs are working?**

**How many Muslim NGOs are working?**

**Suppose if every Muslim will gift one Quran every year, How many Quran he will gift in his life time? Say 60.**

**If all the Muslims of the world gift one Quran / year; in five years, we can gift the Quran to each and every one.**

**When they read the Quran, if they get *Hidayah Alhamdulillah*.**

**Even if they did not get *Hidayah*, we have done our Job; at least they may not hate Islam.**

**Allah (ST) has said: It is His job to give *Hidayah*!**

**Our job is just to convey the Message!**

**Did you ask yourself: How much you spend to please your friends?**

**How much you are spending to please Allah (ST) every year?**

**So this is just a reminder for you, to do your duty towards Allah (ST) to convey**

**His Message to the people so that you will be eligible for *Jannah*!**

**So, gift a Quran at least one every year.**

**Our beloved Prophet spread the Islam by reciting them the Quran.**

**We may not have enough time to go for *Dawah*!**

**Every one of us can not be a good speaker.**

**We can at least gift a Quran!**

**So at least gift one Translation of Quran to non-muslims every year.**

**Do not wait for others to give you a copy of the Quran.**

**Brothers!**

**we have started a project to distribute the [Qur'an in Telugu language](#) under the title: '*DIVYA QURAN SANDESHAM*' in Andhra Pradesh State of India . Where most of the people know only Telugu. The population of A.P. is about 80 millions.**

My translation is directly from Arabic to Telugu, unlike the other Telugu translations available in the market. I have taken care not to miss any word of the Quran in my translation and translated each *Ayath* separately, unlike the previous translations. To distribute one Quran to each village we need 78,000 copies. Our means are not that big for such a huge project. If you all contribute, we may be able to succeed in our mission of distribution of the Translation of Quran.

After finishing in A.P. we will start distributing the Quran Translations in other regions of India , in other languages and then in the whole world, *Insha-Allah*.

Wa laikum salam,

A bus stop kind of place represents a stage of your life. A gun represents enmity. So it seems that -perhaps amongst your relatives or friends- you have enemies who don't want to see you happy i.e. marry the man of your choice but others -the elders- are full of goodwill for you. I think you can interpret this dream just by using common sense!
